Attention: Mr. James T. McEvoy, Director

Dear Mr. McEvoy:

The condition of this letter pertains to the Ohio Rubber Company, subsidiary of Eagle Picher Industry, 3911 Ben Hur Avenue Willoughby, Ohio 44094.

In the past eight years of being a resident in the city of Willoughby, we have been exposed to a certain odor coming from the Ohio Rubber Company. While, at times, the odor became a little strong, we never felt it necessary to complain. However during the past year and on several occasions there is a stench emitting from Ohio Rubber Co. that permeates the entire City of Willoughby. In certain instances the stench could be likened to a gas attack. Such was the situation on the night of March 18, 1979. At about 9:30 P.M., my wife and myself were actually made ill by the horrible odor that seeped into our home. The origin of the odor, Ohio Rubber Company.

Please, cannot something be done to cause the Ohio Rubber Co. to control this most deplorable condition?

Yours truly,

Lloyd D. Watson
